

Western Sydney Parklands Trust to release 2011 Annual Report

KJA is providing writing and editing services for the Western Sydney Parklands Trust's 2011 Annual Report. KJA has a detailed understanding of the Trust's activities, gained through previous work on the Parklands Plan of Management, and more recently through our involvement developing a program of consultation for the Parklands business hubs.

In 2010, the Trust engaged KJA to design and undertake a broad consultation program for the development of a 10 year Plan of Management. KJA raised awareness of the Plan of Management's vision and strategic direction for the Parklands' future through a two-stage consultation process in June and November 2010. Feedback from the consultation process was used to develop a final Plan of Management that was approved in January 2011 and will guide the key priorities for the next 10 years.

Our assistance in this 2011 Annual Report as well as in the program of consultation for the business hubs will continue to strengthen the relationship between KJA and the Western Sydney Parklands Trust in engaging key Parklands stakeholders.
